Find useful customer reviews and ratings for The Neuro-Programmer 2 HOME (mental development software) at Amazon.com. Read honestly and with an open mind. Don't tell yourself, "It's still not that low compared to other books"; "I'll just read the reviews"; "I know what this author says about the books I read. This man is right." As I said before, you have complete freedom in what you read. But I still advise you to be honest with your readers before you decide to read this book or not. You will not find a single book here that is not worth reading. And if you decide to read this book
