Downloader Screenshots: Downloader Full Version Downloader Free Downloader FreeQ: How to add visibility for ViewPager activity indicator I'm using FragmentPagerAdapter and ViewPager for a ViewPagerActivity. I added a underlay for the TabActivity. My tab indicator (Activity indicator) looks fine, but the indicator inside of the fragments are not visible. Is there a way to put the visibility of that indicator to View.VISIBLE or something? Thanks. A: I don't think you can do this through a standard ViewPager, but if you're willing to change to a different ViewPager implementation, perhaps a MyViewPager would work. The docs aren't great on this particular question, but here's a Google code project which implements such a pager, and likely provides more information as well as examples. To add a hidden overlay, you'll first need to add it to a fragment. 1. Field of the Invention The present invention generally relates to data processing and more specifically to a technique of synchronizing data and/or information contained in data objects. 2. Description of the Related Art Businesses with websites and/
