TFDi Design creates safe and secure products and services for PC, PDAs (mobile phones & tablets), all online.College scholarships Every year, a select number of scholarships are available for UBC students. These are intended to assist students in reducing the pressure on tuition. Please note that these scholarships are not intended to be an avenue for students to just "cash in" on academic achievement. Students receiving such scholarships must have earned their UBC bachelor's degree before receiving funds. If you are a UBC student who is interested in receiving a scholarship, please check in with your guidance counsellor. Scholarship Information The amount of money each student receives is determined by a committee which considers many factors (including the number of students who apply, academic performance, etc.) The amount of scholarships awarded to any one student is not guaranteed and may not be sufficient to cover the full amount of tuition, which is what determines a student's final cost. Scholarships are awarded on the basis of need, and amount awarded is limited. Amounts awarded can differ between calendar years. Students must return the scholarship at the completion of their bachelor's degree. The value of each scholarship is determined by how much tuition students pay, and as always, the cost of living at UBC is not included. Each scholarship is awarded to one student, and only one application is permitted per student. Incomplete applications will not be accepted. The application form must be submitted with the application fee. It must be submitted by the application deadline. Students are urged to make the application process a priority. Applications for scholarships will be accepted the following months: Fall Term: September to March Winter Term: October to April Spring Term: May to August Details on the scholarships available, application procedures and more information about UBC scholarships can be found on the Scholarships section of the U
