I am keen to learn games development. I would like to express gratitude to your attention and your willingness to investigate my problem. You can upload files to the folder Documents>Your name>AppData>Local>Local b>SOFTWARE>Shockswave Flash if you wish. I would like to very much express gratitude for the time you have spent to read this post. I will not put a hyperlink here as it's difficult to write it in another language as it's a russian tool, and I use the english language for operating it. I am a software engineer, and I would like to develop games for Android and iOS. As I didn't have a chance to create games so far, I would like to do this for the first time. Hello, I have a good news for you. Finally a reliable tool has been created for uninstaller application. It is the PUP Registry Cleaner, which is a real alternative of the Windows uninstaller. It has a special feature. It will clean the registry and the files on your PC. You can use it in order to perform cleaning of registry and files. By the way I can say that it is based on a new file and folder search system, so it finds and removes hidden shortcuts, files and folders. You can use it directly by creating a shortcut (on desktop, or in any other directory that you prefer). The PUP Registry Cleaner is compatible with all Windows versions including Vista, 7, 8, 10. It is an easy, fast and very effective tool. You can free download PUP Registry Cleaner from the link below.
