Handout Wizard is a Microsoft PowerPoint add-in designed to create a professional handout from your presentations. This tool allows you to customize the handout with just a few clicks in order to quickly create the document. You can export all the slides from the presentation or select the ones that you need to include in the handout. The add-in is able to use custom layouts in order to create the handout with a different aspect. With the CSVM 3 Desktop (C#) Project, you can view, modify, and even create your own SharePoint 2010 and 2013 collections. Since we have decided to use C# as the primary language for the new project, we have also decided to create the CSVM project as a Universal Windows Application (UWP). By using a UWP you can run your CSVM 3 project on Windows 10 and Windows 10 mobile devices. The commercial application is a specialized tool for changing font sizes in Microsoft Word 2010, 2013, and 2016. This Add-In has a number of features that make it particularly suitable for use with web content and the Internet. The ACD Macro Wizard is a complete macro application. It has its own Macro Manager, a worksheet that can be used to record macros. The wizard offers a flexible interface, allowing you to see all functions available. The application features include:

- Worksheet and Macro Manager for your macro creation.
- A user-friendly interface for working with functions.
- Easy file loading and saving.

The LogToImmediate Macro enables you to create a macro that will run as soon as the macro was recorded. It is very useful for creating macros that can run, for example, from a Web page that creates a user account. It is especially useful for creating macros that execute a command when a user logs in to a computer. You can create macros that run when the user signs in, logs off, or changes their computer settings. Office Filing Plugin for Google Drive allows you to synchronize your files with Google Drive. You have ability to access your files from anywhere: Windows, Mac, Android, iOS, and other platforms. You can search, edit, delete, and upload files, edit tags and comments, and modify file permissions. Google Drive stores files in Cloud, so there is no need to upload files to your personal computer. Personalize the background of your word document with a series of customizable styles. Includes over 70 pre-designed styles and 1000+ different border
