Are you ready for a trip to the Moon? Hercules is going to the Moon! This time he has been asked by the goddess Selene to stop a dangerous monster. It's a real adventure! Meet the friendly canine friend of the hero, Cerberus! Go to space and help Hercules find the missing parts of the spaceship! Use portals, alien technology, new locations, dungeons, puzzles and even a mystical celestial library to solve the mystery of the missing parts! Find the mysterious Celestial Library! Go to outer space and make a fantastic journey with a fantastic game! Amitja's advice: "12 Labours of Hercules IX: A Hero's Moonwalk is a cool space game with a bright and psychedelic visual style. Combine the puzzle gameplay with the great story - and you've got a great game!" Alli know Alli Alli (also named Aliss in some releases) is the main protagonist and one of the playable characters of the game. She is a dimwitted young adult with silver hair and a pink hair band, who by day works in the milliner's store "Holly-nique" and at night she devotes herself to the welfare of the fairy tribe. According to the game's manual, she is Aliss, the girl from the real world. "Aliss" was also the title of a series of Aladdin tabletop role-playing games produced by Fantasy Flight Games and its creators Steve Jackson Games, from 1991-1996. There is no connection between the games of the two series apart from the name of the games; the Aladdin video game series was produced on a different platform (Mainframe computers, Midi Muder, DOS) and was not developed by Steve Jackson. Alli receives messages from fairies about the devas's archrival - the Chained Man, who seeks to capture the fairies and enslave them to work for him in his prison. Alli receives help from an old friend of hers - a reanimated Rod the Reaper with a huge crossbow. Alli is a well-designed character: she is stoic, serious, intrepid and with a strong sense of justice. Her personality fits in well with the moral and melancholy theme of the game, and the cheerful and jovial atmosphere of the cartoon. The character has a bit of a hard face and looks intimidating, but actually

Sea of Fatness is a live action game designed by the people who made the award-winning Play and Win thriller Satisfaction! A must-play for all puzzle-love fans. I've seen it too many times... The game consists of a large number of distorted, obese and naked characters that have to be smashed to pieces by a bomb before it explodes. The amount of fat and the number of naked characters are based on statistics collected from the late George W.Bush and his family. Regards. The goal of the game is to figure out how to fit 4, 5 or 6

nude fat characters in the bomb's slip-on just before the explosion. The game is a bit shocking, yes, but also hilarious. Sea of Fatness is lighthearted and fun with loads of action. We are putting very high emphasis in how clean and good looking the game plays. You will see the Roxy Raccoon experience more than its predecessors, while still playing similarly to how we hope you would think a Roxy Raccoon game should be. Jump and RollRoxy Raccoon is a 2D side scroller. Like many other 2D platformers, Roxy Raccoon plays out from a side-on view and requires the use of the arrow keys to move. You will need to jump and roll across many obstacles, such as spiked pits, boulders, and spikes that have been placed on top of them. Each of these obstacles has a height and thus a different movement method. The game will teach you how to move and jump through a few different levels before really getting into the meat of its gameplay. Most enemies are fairly easy to avoid, but you may find yourself needing to jump a spiked pit or jump past an enemy that is right above you. You may find yourself being knocked back and forth from one area to another as you jump past traps, walls, and enemies. Each area contains a myriad of challenges, which will require you to jump over traps and enemies as you attempt to find the witchs treasure. All Leveled up awards are connected to certain themes, which you can unlock as you play the game by getting rid of things like snow and fog. When you get rid of snow or fog from the area, you will unlock a new skin. These skins do not just affect your appearance, they also affect your ability to fly. When you remove snow or fog from a level, you may have to jump extra far to avoid it. The game plays similarly to Super Meat Boy, except it is a 3D platformer. It is a game of trial and error. You will have to deal with many puzzles as you progress through the game. There are many different mechanics that use in order to complete each puzzle. Using gravity can help you navigate the level. There are many different ways you can go about solving each puzzle. Environment - There are many unique areas in the game. You will go from snowy beaches to beautiful beaches as well as large green forests to small ice caves. The world feels large and there is room to explore. Game Difficulty - There is no easy mode in Roxy Raccoons game. You will always be playing as a child of around 6-8 years of age. This means you will be taking on many challenges your parents would not have

 (A.J. McLean song) "Take Me Home" is a song by American singer A.J. McLean. It was released in March 2001 as the third single from his second studio album Shoot First, Love Later (1999). American singer-songwriter Jewel wrote the title track of the "Take Me Home" music video, while McLean spoke about the concept with vocalist Lenny Williams and musician Joey Knepper. Recorded, mixed and finalized in New York City, the simple and minimal song gained in popularity and critical acclaim upon its release. "Take Me Home" was McLean's most commercially successful single. Also known for his musical collaboration with American singer-songwriter Sara Evans, the track was included on Evans' ninth studio album, Family Man (2001), and it was released as the final single from the album. The track gained recognition in Europe and received positive reviews. The melody and drumming sound in the chorus were inspired by the works of American musician James Joyce. McLean and Evans performed "Take Me Home" in a duet at the American Music Awards 2001. It received nominations for Best Pop Vocal Performance, Male at the 43rd Annual Grammy Awards and Best Pop Collaboration with Vocals at the 42nd Annual Academy of Country Music Awards. The track was performed at Live 8 in London and his live version was included on his number-one album, Fire It Up (2003). Music critics have praised the song's musicianship and McLean's expressive vocal

performance. The song has also been cited for its influence on pop music. Background American singer-songwriter A.J. McLean grew up listening to rhythm and blues, soul and southern rock music and had a love for contemporary R&B music, particularly the works of American singer-songwriter Stevie Wonder. McLean's influences included Whitney Houston, Luther Vandross and Toni Braxton. "Take Me Home" was recorded, mixed and finalized at MegaSquaredRecords in New York City, and production was handled by Hooks In My Area and McLean. Instrumentation was done by Lenny Williams, Joey Knepper and McLean himself. The drums in the song were played by McLean, while Williams provided the keyboards, Knepper played guitar and 16-track recording engineer Dave McNair played the bass. The single cover art was created by Stefan Horvat and was photographed by Ludwig Nussel at Brickstudio in New York City
