Reviews I'd like to conclude this review by mentioning that the game's music is absolutely wonderful! The compositions are superb, adding a dark and gritty feel to the game which greatly enhances the experience. All the music was composed exclusively for the game and the talent of the two composers, I think it's safe to say they met the mission's expectations and exceeded them! The official beVaiR Soundtrack contains 50 minutes of composed cyberpunk music perfectly suited to the game and all your favorite songs from the game. These are songs you can legally use in all of your personal and commercial projects. Visit our website (www.queplaymusic.com) to see more details on the process we go through to produce music.
