We've gone out on a limb and created a countdown of the top 5 player ratings from our preliminary 6/22 game-play ratings: 5. Fernando Torres (FIFA 22) Rating so far: 88.4 (100 being perfect) Torres for EA Sports FIFA 20: The most iconic goalscorer in the world - the man with the sweet left footed finish - is back. I get asked to name the best striker in the world, but that's not really how I remember the 1980s and '90s. They're all part of my childhood. And I'm sure for kids growing up in Spain today that Fernando Torres is about the most recognisable name as he's been the King of the Kop for Liverpool since he joined them from Deportivo La Coruna as a 16-year-old in 2004. 7 goals in eight appearances for Liverpool FC against rivals Manchester City in the UEFA Champions League over the past two seasons might not be a huge amount, but if he was a 32-year-old and taking the armband at the club, he wouldn't be among the top 40 players in the world - like he is in FIFA 22. Torres plays the keeper, holding midfielder, attacking midfielder or second striker role in the game, with a strength rating of 107 and an intelligence rating of 87. He has a simple goal ratio - 0.67xG/ xA - but, he doesn't offer much in the way of assists. His rated passing and dribbling have both dropped, but he's still an intelligent, brave and reliable dribbler, has the eye for goal, is good at playing off the shoulder, has excellent close control, is a hard man to tackle and is a very good header of the ball. Torres has always struck me as somewhat of a person who is at his best in the biggest games. It's not that he always shows up for the most important games but he just reaches a level of concentration and selflessness when he plays in important matches that is remarkable. That's certainly the case with him playing at Anfield against his former club Chelsea in the 2015/2016 UEFA Champions League semi-finals. Neymar and Lionel Messi were two of the most physically gifted players in the world at that time, but even then, they looked like children when compared to the level of Torres' effort and

Fifa 22 Features Key:

- Live for the World Cup: FIFA 17 was the first EA Sports game to visit Russia. FIFA 22 hits the tournament for the best-selling game of the year with an all-new World Cup mode and 11 new stadiums. For the first time ever, FIFA will host the FIFA World Cup™ and the FIFA Women's World Cup™ simultaneously in Canada, France and the USA.
- Unrestricted gameplay: Play your way. Whether you want to play as a striker or a defender, FIFA 22 gives you more freedom to change tactics and adapt your playstyles according to how you choose to control the game. The on-pitch setup has been refined, with a more realistic full-back armour system and the experience on the ball now comes from the speed and power of your dribbling. As well as all the latest goalkeepers, players are now more mobile and their off-the-ball movements can be more skillful and unpredictable.
- Unchanged teams: The most engaging and authentic football game ever, FIFA 22 has been based around an all-new game engine so there's been no need to make changes to the teams. With actual training data used in the creation of teams, players and kits, FIFA 22 contains a library of real-world player attributes and the players are designed to appear more like their real-life counterparts.
- Real-life animations & physics, and Player Intelligence: An advanced player likeness model has been introduced, using data from up to 22 real-life players. Realistic real-life footwork and movements are now in the game, including making players appear to leave their feet in different ways as they turn and dribble in games and training.
- Refined game physics & player intelligence: All players are now tackled more intelligently, with the ability to make them dive for the ball instead of juke and dodge. Goalkeepers no longer have the ability to cheat their way out of difficult situations and defenders no longer have the ability to jump for the ball while standing still.
- Redesigned movement controls: Input the slightest touch to make the ball react and bend to your will. Move out of tight spaces with ease, and finish passes precisely thanks to new

controls that use Touch and Motion Sensitivity to help you snap accurate one-on-ones. Force a defender to accept a pass with the correct input and then finish as quickly as you like.

Fifa 22 Download [Win/Mac]

Discover a whole new way to play The Journey on your favourite football club as you build a dream team from more than 350 of the world's greatest footballers. Pick your formation, kit, then bring in the best footballers from the world's biggest football leagues in one of the most authentic club experiences in video games.
