3D game engine and artificial intelligence, designed to be easy to use but with plenty of depth. Enemy AI brings all the excitement of team based online gaming to your browser, no download required. Massive online Battlegrounds that will take you all over the world. Worldwide leaderboards for shooters, melee, and other games. Play free to try out and get a taste of what this game has to offer. Today, we're announcing CannonBall Entertainment's entry in the zombie genre, CannonBall 2: Dead Center. CannonBall 2: Dead Center features the biggest, best arena of zombies ever in an online action MMORPG, in the battle to save mankind in a world totally overrun by undead hordes. Developed with all the high quality standards that come from a dozen years of expertise in online gaming, the combat between humans is epic, the creatures to overcome are gargantuan, and the multiple battle paths lead you to multiple unique experiences. The strategy of the monsters is as deep as your character, and the world is as massive as your commitment. You'll be able to kill hundreds of zombies (or monsters) in online battles or fight to survive in two online campaigns. The choice is yours, as the story is yours, and the world is yours to conquer. If that sounds good to you, download the game now and start playing online and offline. It's not often you get a chance to do something spectacular, but this was the chance I had to make a real difference. Our world has become a very hostile place, and we just haven't been able to stop it. Somehow we've all been trapped in a critical state of shock with no connection to the world we're living in, and no way to break the silence. In the end, I say again that the only hope we have is to find a way to break that silence. What better place than in the public arena for a population increase? Zombie movies are popular, zombie books are popular, and zombie games are popular! As a result, I built a zombie game engine and designed a world to bring these things together on a massive scale. You've seen it in the movie, and you've heard it in the video games. Now you've finally got a chance to own it! CannonBall 2: Dead Center is the answer to many questions, and the next step in the world of creation. I want to let you know a little bit more about it. Everything Is Different

Tour The Magnate Tour is an Australian concert tour by American rapper and singer Dizzee Rascal, his third to the country following the European Labrinth Tour and the JLS tour. The Australian leg of the tour was announced on May 1, 2014, with the 28 shows officially announced on May 22, 2014. The tour will support his third studio album, The Magnificent (2014). The tour was originally announced as Dizzee Rascal Band Tour, but on 25 February, it was changed to the Magnate Tour. On November 3, 2016, his record label distributed a press release announcing his fifth Australian tour, as well as re-branding it as a Dizzee Rascal For Life tour. Overview On 2 September 2013, Dizzee Rascal announced his third world concert tour, Magnate World Tour, to support his third studio album, The Magnificent. On June 24, 2014, it was announced through Dizzee Rascal's Twitter account that the concert tour would cover Australia, New Zealand, and Europe as a part of his Take Off tour. The tour started on 1 November 2014. The Magnate Tour includes 28 shows in Australia. During the first week of shows in Perth Arena, 20,000 people were in attendance. The full video of Dizzee Rascal's performance in the Stereo Geyser Defcon 2 Studios in South Australia was released on Thursday 16 November 2014. The Magnate Tour performance at Perth Arena was released on Dizzee Rascal's Twitter page and audio player on 21 February 2015. Critical reception Despite announcing the European and Australian legs in May, Dizzee Rascal's Fanclub released the free "The Sound of Reality" EP via digital download on 5 June. The EP includes "The Sound of Reality," "Speakerphone" and "Dreams Never End," the three songs of the "Don't Matter What They Say" Tour EP, plus "Don't Speak". All three songs, excluding "Don't Speak," were recorded between February and April during the same sessions that produced The Magnificent. The Australian shows of the Magnate World Tour have received generally positive reviews. The opening show of the concerts was criticised due to a tragic collision involving a tram and people attending the show and then a tidal wave washing over the crowd. 3 News Live presenter Kyle Sand
