## **Introduction:**

The fantasy RPG known as *Elden Ring* (*Elden* for short) is the very first complete fantasy RPG developed by the company *Krasnystroy*. Even though it was released on August 11, 2011, *Krasnystroy* has always been known as a creator of long-lasting and attractive games that deserve a lot of attention. We hope you'll enjoy this new action RPG based on the characters and world of the popular *Elden Ring* manga and anime.

## **Design Concepts:**

The *Elden Ring* RPG was designed to be much more than simply an action RPG. It was also designed to be interesting and entertaining all the way through. It's important for an RPG to keep the player's interest by having a variety of things happening all the time.

It's easy to say how it's easy to do that in a contemporary action RPG as *Fate/Stay Night* and *Akatsuki no Yosei*. The goal is to create an atmosphere of balancing the different mechanics of the game's world to make people enjoy playing your RPG.

Yet, when you consider the fact that this is *Elden Ring* it'll be different.

First, gameplay mechanics should be intuitive and easy to use. A game where the player understands what's happening at any time is the best type of game.

Second, you should make the players feel a sense of accomplishment. Even if players lose or find less points, they should still have feelings of accomplishment when they beat bosses.

main goal is to traverse all of the Lands Between and visit your friends in the Kingdom. Many of the combat battles are also hot, and unlike the other RPG models, you can choose the type of equipment you want to use. "The above is all I can describe. " GUNMOOL-Ir / CG / Puzzle & RPG / Action & Simulation / 1 CAMPUS "I really, really enjoy it! It is also a very well done RPG. You can use the equipment of a class that you want to when you play a game, and you can make the sword and shield and cut up the enemies that you meet. "The fighting contents are great, but the music and other stuff are also great. Also, I recommend it to all of you. You can also choose classes when you are in a battle, but it is recommended that you equip strong offensive items and mix up the items that you equip in order to prevent the enemy from getting strong. You can use your items to win the battle. The game is really interesting. The game is also an RPG that makes use of great force to destroy your enemies. The combat is very good! " [Heararloo] / CG / Puzzle & RPG / Action & Simulation / 1 CAMPUS "I decided to do a review for the Elden Ring game. It is an excellent game. The battles are not the same as other games, and there are more various equipment items. The main feature of this game is that there is a strong sense of accomplishment when you defeat the enemies. In the game, there is a really good character. It is an excellent game for everyone. The weather and contents are also excellent, and the text is good. It is an excellent game. It is a game that is perfect for everyone. I recommend this game. I am grateful. " Torikami / CG / RPG / Action & Simulation / 1 CAMPUS "The strongest point of this game is that it has a large and beautiful world. The flying dragons are a huge factor, and the dungeons are also wonderful. The bff6bb2d33
