Where can I find more attack options, and do I need to get super weapons/armor to unlock some of these? The 4th one, the weapon based level dash, unlocks by reaching level 5 in the main story. The 4th one, the lightning storm fatality, unlocks by getting level 10 in the main story. The 3rd one, the customization of your moveset, unlocks after reaching level 5 in the main story. Note that the 3rd super power level 5, is not where you unlock the 3rd super power level 5, it unlocks after you have completed the game (first level in the story).
