What's New In SMSPollmp?

Like this: Diaux.HG, a utility that enables you to check or validate the metadata of CD/DVDs, has been released today. The command line utility scans the files inside the disk image provided as input and checks the content of its default metadata. At a first glance the tool seems to be similar to md5deep and md5deep2, but Diaux.HG is more accurate and provides a detailed graphical output report that could represent a first piece of reference for the verification of the disk content. 0.3.2. Changes: – documentation updated – new option: disable the extended attributes display – updated the documentation regarding the use of the "-iv" option – "-B" option no longer displays the bad sectors Like this: FileZilla is a FTP and SFTP client that has been released today. FileZilla offers you an intuitive graphical interface and can be used to control the SFTP server. FileZilla is a fork of the original "FileZilla", developed for the GNOME desktop environment. This is a completely new GUI and the FileZilla team has added many new features. FileZilla is available for Linux, Mac OS X and Windows. 0.5.3. Changes: – many bugfixes – many workflows and features have been updated – many bugfixes in the Windows version Like this: Webrr is a lightweight graphical web browser that, like the original NetSurf, is able to redirect the rendering through a transparent proxy server. Webrr is one of the first web browsers for GNU/Linux systems that supports Javascript, XHTML 1.0 and other web technologies. 0.2.3. Changes: – the proxy server can be configured manually – now the proxy server can be configured via the "-proxy" option – some improvements in the interface – translations for multilanguage support Like this:

Media Golem is a software that enables you to synchronize the music on any Android phone or portable media player with your computer. The Media Golem team has been working hard over the last 6 months to get everything perfect. Now, with the GA version, the product is pretty stable, well documented and fully equipped to face any future eventual update. 0.2
