PDF Debris Proofreading Phrase In using C By Padma Reddy from Spain, i will vote you back..The present invention relates to a method and system for detection of contaminants in a water supply. In areas where there is large population, there are very many water systems supplying water to individual residences. Consequently, such systems may be contaminated by the presence of hazardous or undesirable substances and the water delivered through such systems to the residences may not be in compliance with the restrictions imposed by local law. Moreover, such systems may be contaminated by, for example, leaks. Any person who receives water from a municipal or other public water system will have a continuing desire to ascertain whether the system is contaminated. Unfortunately, there is no convenient method of testing water in a water distribution system. It would be extremely desirable to have a simple, inexpensive and reliable system to accomplish this objective. FILED
