If you are trying to upgrade to the Windows 10 Creators Update in the fall, do you know where to start? Microsoft delivers a new update to Windows 10 on a monthly basis and sometimes delivers it as a cumulative update. For example, Windows 10 KB3198832 is a cumulative update that includes the Creators Update. Also, the Windows 10 Creators Update in October 2018 is build 10.0.15063. As we learn more about Windows 10, we'll post a series of articles that will help you determine if you're eligible to get the latest Windows 10 version in the fall. The first step is to determine if your PC is eligible for the Windows 10 Creators Update in the fall. Check the list below to find out if your PC is eligible: . Can't wait to download this OS? The Windows 10 Home version and the Windows 10 Pro version offer a lot of exciting new features, including new PCs that rely on Intel's new 8th Generation (Kaby Lake) processors. If you are considering a new PC with an Intel chipset, you should definitely get a copy of the Windows 10 Pro edition, so you can enjoy all the features offered by Windows 10 Pro. . . Set -> Download/Run Setup -> choose downloads (you can download the full version of Windows 10, which installs a full Windows 10 system, or you can pick just the Creator's update, which installs the Windows 10 Creator's Update. . . sets6000testdownload Free Download Sets6000testdownload If you are trying to upgrade to the Windows 10 Creators Update in the fall, do you know where to start?
