Play as a young girl and her brother in a floating city under the ocean - a place of contrasts and renewal. Your brother has been hurt in a fishing accident on a journey to a distant island and it is your job to rescue him and return him to the mainland. The city has not fully submerged and the few remaining streets you navigate during the day are awash with color and life. But the outside is not always what it seems, and danger lurks around every corner. If you want to keep your brother alive, you must make it safely to the mainland. First, however, you must discover what has become of the city you have grown up in. You will listen and watch for the items you need, and use your built-in telescope to find clues and get your bearings in the unusual environment. But be careful not to get too close to the wildlife, and don't forget your brother's wounds as you navigate your way to a narrow exit. - Beautifully hand-painted environments that take advantage of underwater lighting to create a unique visual effect that will draw your attention. - A musical score that feels like your heartbeat under the waves, composed by Jeff van Dyck, who has won a total of five BAFTA awards and is known for his work on Deus Ex, Hitman and the BioShock series. - A rich and interactive story written by acclaimed game writer Karl van Dieren who has experience with Ubisoft and other prominent studios. - A maximum of 8 hours of gameplay, with plenty of exploration and interaction. - Regular updates on the game's progress and an active social media presence so you can share your discoveries with your friends. - Game Center support to share your best gameplay scores and see how the community is progressing Submerged, is a beautiful, quirky and unique game. You can get to know a bunch of interesting characters on the way, including an impulsive and inquisitive seagull, a little girl with a disabled brother, a cautious turtle, and a hungry alligator. You can try out the Fast Travel mode to get around quickly and find objects in the water, and the Hand-Tilt option for easier aiming in some of the water and climbing puzzles.
