Real Life 4. Just Add Water 5. Treasure Hunt Controls: Movement Space Bar - Jump Right Arrow - Use item Left Arrow - Consume item Controls: Jump - Swing the machete Attack - Swing the machete Menu How to Play: For each game, you will need to place the machete at the appropriate location, left click with the mouse to swing it, the machete will act as a controller (at full swing it will hover above the right location for a split second). Tip: Items will be available if you're close to the item holder, make sure to clear the way before sprinting to the item in the heat of the action, to prevent yourself from collision damage. Things to note: - You must collect all coins in a game in order for you to be able to continue - You need to have your machete in hand when you begin the match. The machete acts as a clicker for the mini-games, this can be used to navigate certain areas of the game and collect keys and extras. - You can use the machete to swing your way through the obstacle courses to unlock certain doors. Your return trip from each arena will always be by the same route, for more interactive and varied stages of the adventure. - Other challenges can also be completed to unlock other areas within the game. - Enemy AI is based on a simple reflex system, you must swing a machete in their direction in order to damage them and complete their movement. - You can pick up resources and items scattered throughout the game. - Each minigame has its own loading times, this will vary depending on how far you are into the game. - You can quit the game at any time, however there will be some hidden extras to unlock before you can quit. - There are continuous hints throughout the game, I'd recommend replaying the game with a hint enabled, there's a lot to discover in the game, depending on how quickly you've managed to get to the end. - There are a couple of extra rooms and doorways that lie below the surface of the game. - c9d1549cdd

Orwell, is an intense experience. It's a stealth thriller with an immersive and powerful narrative. This game shows that they can make a tense stealth game that's so well-executed, you forget you're even playing as a stealthy guy. I might be more than a little partial to this game because it's one of the few games I can play stealthily because of the out of the way places I go to get by the guards. Of course, you can always just shoot 'em or overpower them. Don't like it? Think they're too easy? How about the story's a bit cliched? Welcome to 1984. We're going to be living in this world for a while, no matter how you like it. Pros - Fun stealth-game - Great story and characters - Plays great on the 360 - Available at a good price Cons - You can run from the police and there's not much you can do about it The [XBOX Live] Weekly Price Drop is on! If you're planning to buy any games or DLC, now is a great time to do it. If you're in a hurry, you can probably get it on sale at your local GameStop or Amazon. Or, if you want to spend a bit more time getting it, you can buy it from the Xbox Live store for \$25/€22 less than the retail price. Here are the games that have recently dropped in price: Awakening Fallout 3 Dead Space Extraction Assassin's Creed 2 Skyward Sword Smackdown Versus Rock 'N' Roll Terraria Game of Thrones: A Telltale Games Series (EDIT: Removed games that were already at their lowest price when the price drop took effect. - Thom) Notes: The price is the lowest the game has been at since the live-drop. [1] The DLC included is the 10% discount coupon code for Xbox Live users, so if you buy it through that, you'll get \$4.24 in value from the coupon code. If you don't use the coupon code, you get \$5.99 worth of free DLC when you buy the game. [2] At this time, it's unknown if these price drops will last until release day. If you've been waiting for your local GameStop or EB Games to take the extra time to reduce the price of Batman

**Date: November 27th, 2013 Time: 03:00 AM Surround yourself with the power of Orcs! Join us in Tortlegh Time as we roll four 2-hour scenarios for the Second Environment Random Earth in Stoneholme: the City of Dreadful Night, with Charon as your dungeon master. This is an adventure for levels 1-6. Characters may be one level lower (or higher) than their PFRPG core book level if they are aware of their character background or feats and Magic Items. The Dungeon Master should make sure that some of the monsters are level appropriate to the character levels as well. Random Earth is set on the world of Stoneholme, a continent dubbed The Puppet Kingdom. Thank you for the recent review! Spoiler(Move your mouse to the spoiler area to reveal the content)Show SpoilerHide Spoiler The time period is extremely open-ended, and is exemplified by the reception of parties such as the capo eredi and Venera at Tortlegh's White Tower. Characters should be aware of how other civilizations, large and small, work -- and should be willing to acknowledge as much. Alternative world history would be a perfect theme for this one! Abby: We take this, and anything until the end of the day, or you lose the amount of XP and the winners are listed (whichever comes first). Vero: What day is it?
